

	180 points	Excellent	Competent	Needs Work
Choice By Voice				
Code	Readability (5)	Code is readable due to consistent indenting and spacing. Comments are used to structure files and document purposes of functions. (5)	Code is readable, but indenting or spacing is inconsistent. Some commenting is used, but not enough or ineffectively. (3)	Code lacks indenting, spacing, and comments. (1)
Functionality	Multiple-ending options (30)	The book offers 4 multiple endings.	The book offers at least 2 multiple endings.	The book does not have multiple endings.
	Visual (20)	Visuals (images and graphics) fit on-screen, are related to the story and are present throughout all sections of the book. The graphics illustrate the story.	Visuals (images and graphics) are not always present while the story is being narrated, or the visuals are present but they do not fit on the screen or are unrelated to the story.	Visuals (images and graphics) are not present while the story is being narrated.
	Voice Commands (50)	User can fully navigate the book using only voice commands, if he/she chooses to do so.	User can use some voice commands to navigate most of the book but some clicks are also required.	User cannot navigate the book using voice commands.
	Controls (20)	Users can view and listen to the story at their own pace. They can replay audio and text by tapping the words, by voice or using navigation buttons. Users can fast-forward through story or restart (replay) story easily.	User can choose to restart (replay) the story and has minor control over the story timeline.	Users can only view and listen to the story as it plays without any control.
	Audio and Text (15)	Audio is clear (without any conflicting noises). Words are grammatically correct. Text and audio are synced and show at the same time.	Audio is somewhat clear (some background noise). Words have minor grammatical issues. Text and audio are somewhat synced but not all times.	Audio is hard to hear (with a lot of conflicting noises), or defective. There are several grammatical issues, and text and audio are not synced.
Usability	WCAG 2.0 https://www.w3.org/WAI/WCAG20/quickref/ (20)	User interface (UI) and its componets meet ALL of the following WCGA 2.0 standards: - 1.1.1 Non-text Content Level A All non-text content that is presented to the user has a text alternative that serves the equivalent purpose... 1.2.2 Captions (Prerecorded) Level A Captions are provided for all prerecorded audio content in synchronized media, except when the media is a media alternative for text and is clearly labeled as such. 1.2.4 Captions (Live) Level AA Captions are provided for all live audio content in synchronized media. 1.4.2 Audio Control Level A If any audio on a Web page plays automatically for more than 3 seconds, either a mechanism is available to pause or stop the audio, or a mechanism is available to control audio volume independently from the overall system volume level.	User interface (UI) and its componets meet SOME of the following WCGA 2.0 standards: - 1.1.1 Non-text Content Level A All non-text content that is presented to the user has a text alternative that serves the equivalent purpose... 1.2.2 Captions (Prerecorded) Level A Captions are provided for all prerecorded audio content in synchronized media, except when the media is a media alternative for text and is clearly labeled as such. 1.2.4 Captions (Live) Level AA Captions are provided for all live audio content in synchronized media. 1.4.2 Audio Control Level A If any audio on a Web page plays automatically for more than 3 seconds, either a mechanism is available to pause or stop the audio, or a mechanism is available to control audio volume independently from the overall system volume level.	User interface (UI) and its componets meet NONE of the following WCGA 2.0 standards: - 1.1.1 Non-text Content Level A All non-text content that is presented to the user has a text alternative that serves the equivalent purpose... 1.2.2 Captions (Prerecorded) Level A Captions are provided for all prerecorded audio content in synchronized media, except when the media is a media alternative for text and is clearly labeled as such. 1.2.4 Captions (Live) Level AA Captions are provided for all live audio content in synchronized media. 1.4.2 Audio Control Level A If any audio on a Web page plays automatically for more than 3 seconds, either a mechanism is available to pause or stop the audio, or a mechanism is available to control audio volume independently from the overall system volume level.
	Consistency (10)	UI is consistent in layout and style throughout. Texts, fonts, colors, hyperlinks and buttons are consistent as well as its placements.	UI is generally consistent in both layout and style, but some elements deviate from the norm in ways that affect usability.	UI is significantly inconsistent with a different layout or styling on each page.
	Navigation (10)	Navigation is separate from content and located in a visible area. Navigation is always present and consistent on all screens.	Navigation is existent but appears in different places or is located on a non-visible area.	Navigation is non-existent
